

Welcome to Applied Criminology!

You have chosen a subject that combines elements of psychology, law and sociology and that complements studies in humanities. Each unit has an applied purpose which demands that learning is related to authentic case studies – this is the interesting bit! It will certainly ‘keep you on your toes’ and make you think in ways you couldn’t imagine. You will certainly have a very different outlook on society by the end of your course.

Overview of the course:

This is a two-year course. Units 1 and 2 completed in the first year comprise an 8-hour Controlled Assessment plus a formal examination. This is replicated in Year 2 with Units 3 and 4. You must **complete and pass ALL units** to gain the Diploma. The overall grades will be recorded on a scale A*-E.

Unit 1: Changing Awareness of Crime (Controlled Assessment)

Task 15

As part of the course, we have to look at the process of what happens from the crime scene up until the defendant is charged in court. Watch the documentary on Netflix of Amanda Knox. Then watch the BBC documentary on Youtube: <https://www.youtube.com/watch?v=erla7Ley4Tw>

Record your views on the case following each documentary. What differences do you notice?

Nature vs Nurture – The Big

Debate

There are many ways of explaining why certain people do things in certain ways. For example, biologists think that people behave as they do because they are controlled by nature. This is known as **Nature theory**. Humans are compared to animals and seen to act on **instinct**.

Sociologists believe that people behave as they do because they are taught how to behave. For example, the sociologist Michael Haralambos states, 'Human beings learn their behavior and use their intelligence whereas animals simply act on instinct.' This is known as **Nurture theory**. Nurture means

the way you are brought up. It is also a reference to **socialization**, the lifelong process by which we learn our culture, values, norms and how to behave.

Task 16

Research the childhood backgrounds of any notorious serial murderers such as Fred West or Harold Shipman. The focus should be on life history and not subsequent crimes. Thinking about what you have read about Nature and Nurture, which explanation could account for their criminal behaviour?

Task 17: Essay

This essay is designed to allow you to demonstrate your understanding and writing skills.

You will be assessed on the quality of your written style, the level to which you have understood and can use key concepts, your organisational skills and ability to follow instructions.

Essay title:

To what extent did childhood experiences either indicate developing problems or appear to contribute to the later offending behaviour?

You will need to select a criminal to write about and pay particular attention to what you have read about nature and nurture. Further research will also be required.

Your essay should have:

- Clear paragraphs, an introduction and conclusion
- Accurate spelling, punctuation and full sentences
- Correct use of grammar
- Accurate phrasing
- A discussion of BOTH nature and nurture, explaining which theory best suits the behaviour of the criminal you have chosen to write about.

Your essay should be at least 500 words and **hand written**.

You should hand in your essay when directed on your return to 6th Form.
